DETAILED ACTION

This office action is in response to the after final amendment filed November 27, 2006. In accordance with the amendment, previously indicated allowable subject material (claims 4 and 15) has been amended into the independent claims 1 and 13. Claims 2-4, 8-12, and 19-36 have been formally canceled. Claims 1, 5-7, 13, and 16-18 are pending.

Allowable Subject Matter

1. Claims 1, 5-7, 13, and 16-18 are allowed. The following is an examiner's statement of reasons for allowance: the closest prior art of record (Ono U.S.P. No. 5,473,457) does not teach or reasonably suggest, as a whole, the specific claim limitations with the addition of the polarization controller comprising at least one *petal* that contains at least one fiber optic cable loop, the petal being *rotatable* about an axis that is parallel to a direction of travel of a light signal passing through the first and second optical device, in which PDL is reduced in *both* the first and second optical devices.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

2. Applicant's arguments, see after final amendment, filed November 27, 2006, with respect to the amended independent claims 1 and 13, have been fully considered and are persuasive. The rejections of Ono '457 have been withdrawn. Applicant has added claims 4 and 15 into the

Art Unit: 2874

independent claims (1 and 13, respectively), which was indicated as being allowable in a previous office action (final rejection mailed July 25, 2006).
